

Beginning Monday, January 4, 2021, Concord Utility Services will begin changing out the water meters for Kiawah Island Utility, Inc. (KIU). This work will begin in the Ocean Park area and will continue westward over the next 2-3 months until all meters are upgraded. The employees will be working closely with the staff of KIU and will be identified by their logo as shown below.

We look forward to the benefits this new metering technology upgrade will bring to our customers. If you require additional information, please contact Becky Dennis at [Bdennis@swwc.com](mailto:Bdennis@swwc.com)

Example of Corporate Branding on Vehicles, Uniforms, Badging
